OFFSET	0.25mm
PRESS TEMPERATURE	160°
PRESS TIME	15 SECONDS
PRESSURE	MEDIUM
APPLICATION TAPE REMOVAL	COLD

WASH	APPLICATION TAPE	ALL OUR FULL ROLLS ARE 25 METRES
	 NONE	50cm Width / 75cm Width
	MIRROR PRINT	Cut metres only available 50cm wide
		Other widths available on request

SUGGESTIONS

Print in mirror image, weed as usual, lay transfer face down and press for 10 seconds.

This material is cold peel. You must wait for a minimum of 10 seconds.

We suggest after removing the carrier, to cover the design and re-press for 10 seconds. This can improve the feel and texture of the transfer on the garment.

PLEASE NOTE

The technical data above are the results of our laboratory tests. We always recommend a small trial test of each product before production. We also recommend not to store the materials in damp or high temperature rooms.
